

408 Henley Perry Drive  
Marshall, Texas 75670

November 14, 2016

Dear Sirs,

*I retired from the Sabine Mining Company in April of this year after 35 years in the engineering department. I have been asked by Marty Gould, V.P. of Beacon Aviation, Inc. to write a recommendation letter for Beacon Aviation, Inc. After working with Beacon Aviation, Inc. for the past 19 years I have come to expect a high quality product that is both competitively priced and delivered in a timely manner. By introducing new forms of accurate aerial intelligence I was able to see the work environment like never before, which increased our efficiency and lowered costs. Beacon has consistently pushed the limits of the Aerial Intelligence industry, making it an advantageous working relationship. It is with this experience over the years that I can confidently recommend Beacon Aviation, Inc.*

Sincerely,

Charles E. Ettinger, PE
